REFRIGERATED TRUCKING

- 🥬 100+ refrigerated trucks with OEM temperature loggers.
- 🍌 Uniquely designed container trucks, with larger volume capacity caters to both long and medium haul requirements.
- 🍅 Fleet is 100% GPS enabled. Real-time tracking, temperature and speed is monitored through manned "Truck Control Centre" assuring on-time deliveries with perfect temperature integrity.
- 🌿 Standard pre-trip inspections ensure world-class hygiene standards and maintenance-free running while in transit.
- 🍌 Experienced engineers equipped with most modern tool sets manage an in-house maintenance facility strategically located across India.
- 🥕 Trained drivers who are specialized in refrigerated cargo movement.

REFRIGERATED WAREHOUSING

- 🥒 ISO 22000:2018 and ISO9001:2015 accredited cold storages operating 365 days.
- 🍌 7 decades of experience and expertise in handling frozen & chilled food.
- 🍎 Best-in-class palletized cold storages coupled with most modern material handling equipments (MHEs) to quickly unload and load temperature-sensitive frozen and chilled food products.
- 🥬 Integrated blast freezing, packing, re-packing and labelling facilities.
- 🍌 Excellent safety and hygiene standards maintained across all activities.
- 🥕 100% power back-up for cold storages and value-added services.
- 🍎 Trained and dedicated manpower exhibiting high level of professionalism, speed and accuracy.
- 🥒 Robust Oracle Warehouse Management Software that guides put-away, picking, FEFO and batch management.

FREIGHT FORWARDING & SHIPPING

Global supply chain demands seamless integration of activities to achieve time bound shipment of cargo. International freight has become more complex as regulations for each country vary with requirements of paperwork, detailing and understanding geographies.

ACS offers an unprecedented value with its knowledge and expertise to integrate international freight forwarding by Sea, Air and Road. With over 7 decades of experience in handling highly perishable temperature-controlled food, we bring in qualitative cost efficiency and speed into the process.
