Fresh Frozen Halal Meat

Ethiopia has the largest livestock population in Africa and the 10th largest in the world. Animal husbandry is mostly carried out under natural grazing, making the meat and meat products obtained from the animals very tasty and nutritionally healthy for human consumption.

Our latest Foray - Integrated Meat Processing Complexes in Ethiopia.

To cater to the ever increasing global demand for animal proteins, we have made massive investments in establishment of world class, integrated, abattoir complexes in Ethiopia. In line with our long term strategy and capitalising on the untapped potential of Africa contributing to the global food supply, we have constructed, state of the art, integrated abattoir complexes in Ethiopia:

**Frigorifico Boran Foods PLC ,
