Allana®

In the world of processed fruits, one Indian company enjoys one of the largest slices – **Allana**, a name that reflects “**World-class quality**”

The Allana Group – conferred with a rare recognition of “Five Star Export House” by the Government of India, is a trusted business house with more than 150 years of experience and reputation of “**delivering nothing but the best**”

Our products are very well **accepted across the globe** as high quality ingredients by multi fruit based industries such as beverages, ice creams, dairy, confectionary etc

Producing **over 30,000 metric tons** of fruit pulp annually, Allana is the **Largest exporter** of food products from India.

At Allana, the **focus** has always on the **quality**. The **choicest fruits are selected**, inspected, sorted, washed and then taken to the ripening sheds where they are ripened in a uniform manner under controlled conditions. The ripened fruits are then thermally processed and **packed in pre-sterilized high barrier bags to retain the natural taste, colour and aroma of the fruit**.

All our **processing units** are equipped with **state-of-the-art technology** and are fully mechanized. The units are equipped with cutting edge technology **ELPO-FBR Aseptic Plants** and **Advance WEB-FILLERS**.

Food Safety is a top priority and Allana is dedicated to delivering High-Quality products to consumers.

Allanasons has made substantial investments in creating world-class integrated food processing facilities. Our production units are certified for

Quality Management System **ISO 9001:2008**

Food Safety Systems **FSSC-22000:2011**

Environment Management System **ISO 14001:2004**

Occupational Health & Safety Management **18000:2007**

HACCP

SGF certificate

KOSHER certificate

Halal Certificate

The plant, machinery and the process layouts are designed keeping the Good Manufacturing Practices (**GMP**) and Critical Control Points (**CCPs**) into consideration.

The fruit processing plants are managed by a team of **technically qualified professionals**, who believe in **delivering** only **world-class products**.

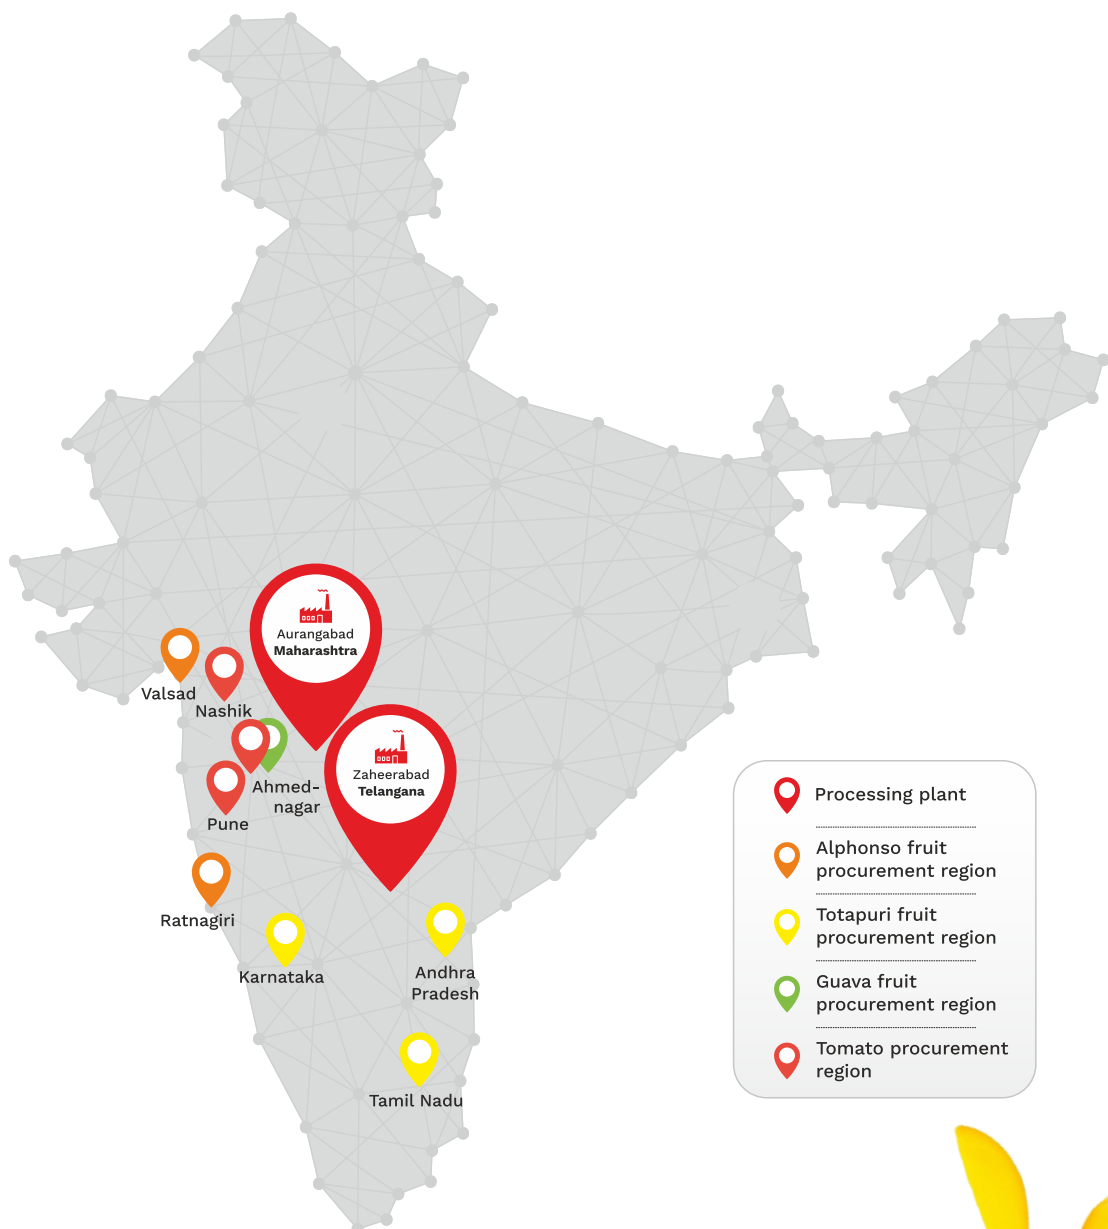

Our 2 hi-tech processing plants are located strategically in West and South of India, leading to minimum transit time for the fruit, thereby maximizing quality.

State-of-the-art mango processing facility at Aurangabad, in the state of Maharashtra and at Zaheerabad in the state of Telangana deserves special mention.

With a specific focus on **Alphonso** Mango, the **Aurangabad**-based plant enjoys the locational advantage of access to premium varieties of

Alphonso fruit from **Ratnagiri and Valsad** regions – the epicentres of this golden harvest. **Guava**, procured mostly from **Ahmednagar** region & **Tomato** from **Nasik, Pune & Ahmednagar** in Maharashtra is also processed at the Aurangabad facility.

At our **Zaheerabad** plant, we have the locational advantage of processing **Totapuri** Mango fruit which are **procured from** the states of **Andhra Pradesh, Karnataka** and **Tamil Nadu**.

ALPHONSO MANGO PULP

Also known as the king of mangoes, the exotic aroma and flavour of the fruit makes it unmatched to any other variety of mango. The super quality mangoes are sourced directly from the famous mango orchards of Ratnagiri and Valsad. It is excellent to be used in preparing baby food, confectionery & packed beverages.
